

## ANTEN MILLS

### Proud of Environmental Initiatives

#### Efficiently operate by

- completing stump dump cleanup and a cleanup of area adjacent to existing extraction area
- posting new product signs on-site
- supplying Niagara Biosolids with wood for their biofilter

Marc Clemmens

Glenn Bowen

Mary Plewes

#### Acknowledge our part by

- installing double walled fuel tanks with boulders for protection
- upgrading to double walled waste oil tank

#### Reduce our impacts by

- installing timers on fans and lights in washroom
- installing motion detection lighting in office
- turning off lights in the shop when they aren't required
- introducing electronic invoicing and scale tickets
- reducing dust by using calcium chloride semi-annually

#### Take time to plan

- Proactively initiating a well monitoring program on-site
- Conducting well inspections as due diligence

Stump Dump

Product Signs

#### Higher Environmental Performance

- Significant improvements made to the site, including:
  - site fencing, signage and grading
  - working with surveyors to get the SE boundary line established

#### 1st Innovation and leadership

- Stock piles repositioned, with effective signage, to eliminate reversing of trucks. Traffic moves forward with no idling and a reduction in dust

Double Walled Fuel Tanks

Upgraded Waste Oil Tank

Storage

#### QUESTIONS / DISCUSSIONS

1. What on-site tanks could be upgraded?
2. What signs could be added or updated on-site?
3. What changes could you make to loading and unloading procedures to be more efficient?
4. How have you marked your site's boundary?

## EARTH 1st CHALLENGE #8

Our Challenge to you is to identify an area of focus for 2014. What area will you focus on to achieve Higher Environmental Performance? We are also asking divisions to think about what they would like to include in our EARTH 1st Time Capsule. What would you like the future to know about? We ask that each division create a list and post to the challenge site.

As part of Challenge #8 we are also going to ask guests of our 10th Anniversary Celebration to let us know their environmental pledge. Each pledge will count as a point towards Challenge #8!
