

EARTH 1st Message Board

The purpose of the message board is to promote and communicate EARTH1st at each of our locations. It is the go to place for environmental information aimed at educating and inspiring everybody to make choices that support the environment.

What to do:

- Have a central message board that provides the latest EARTH 1st information. The idea is to make information accessible, so your message board could be electronic or physical depending on your workplace.
- Promote discussion about specific EARTH 1st issues and how they apply to daily work.
- In addition to what is required to be posted, get creative and post things that you have read and may be of interest to the rest of your team.

AS A MINIMUM,
POST THE FOLLOWING ON THE EARTH 1st MESSAGE BOARD:

- EARTH 1st Manual
- EARTH 1st Goals
- Environmental Code of Practice
- Monthly Environmental Messenger
- EARTH 1st Committee Minutes
- Updated Emergency Response Phone Numbers
- Emergency Response Handbook

Strive
FOR WISE

DID YOU KNOW?

- Site specific electronic EARTH 1st Message Boards are available on each site's environmental Intranet page.
- The message board is reviewed as part of the Environmental Performance Reviews.
- It is important to remember that information that is necessary for emergency response may be needed when there is no power. Keeping emergency response manuals and contact information in paper form may be the best alternative.

QUESTIONS/DISCUSSIONS

RECORD RESPONSES SPECIFIC TO YOUR SITE

1. Who is responsible for updating the message board at your site?

2. How are new employees introduced to the contents of the message board?

3. Where is your message board located? Is it up to date?

4. What suggestions do you have to add content to your EARTH 1st message board?

Champions: WEG Drop-Off Facility

The team at the public drop-off in Thorold are reducing impacts! Employees discovered some full paint cans in a load brought onsite. They stopped traffic unloading in that area and separated all the full paint cans from the garbage for management as unacceptable waste.

The site has also started to collect used cooking oil (UCO) that Organic Resource uses for their UCO project as well as collecting batteries to support fundraising efforts for Shaver Health and Rehabilitation Centre and Community Care.

A job well done to everyone at the drop-off site!

YOU ARE WONDERFUL!! CONGRATULATIONS!
Clearly no group can, as an entity, create ideas. Only individuals can do this. A group of individuals may, however, stimulate one another in the creation of ideas. Estill I. Green
