

# Dream Our World

*Dream our world is about taking time to create the future we would like to see.*

*Have you ever thought about the fact that everything you have and use, was once just part of someone's imagination? What seems impossible today, may exist tomorrow.*

*What makes something possible is someone with an idea, who perseveres and takes action to create what others think is impossible. It has all been dreamed into existence by the imagination of great innovators. Imagine the untapped demand for a society that lives in balance with nature.*

## Imagine a world where:

- We create communities that are net producers of energy from renewable sources
- Society is built to support the environment, not consume it
- Your work is to be a caretaker of the earth
- No waste is produced that is not food for another
- Abundance and diversity are supported
- What you think of as impossible is actual
- Factories emit nothing to the air, to land or to water and use only renewable resources
- Products we use support our health and the health of our world.

Strive  
FOR Wise

THOUGHTS CREATE ACTION – ACTION CREATES CHANGE!  
IT STARTS WITH A WILD IDEA THAT SOMEONE MAKES INTO REALITY.

## Our Champion for November is Don Wyld at Edgar Pit!

Don Wyld, a longtime employee of Walker Aggregates continually goes above and beyond. He takes pride in his work and takes initiatives to beautify the Edgar Pit site and make it more green. If you visit Edgar, you will see that plants have been placed around the office and the employee lunch room to create more warmth. Don also goes the extra mile when conducting monthly environmental site inspections. His inspections are very detailed, contain "To Do lists" and are very clear on how action items are being completed. Don has been involved in EARTH 1st since 2005 and part of the EARTH 1st Committee since 2010. He has also contributed to the reduction of the site's water footprint. Thanks, Don for being an environmental champion and always going above and beyond!

**We are the environment!**

YOU ARE WONDERFUL!! CONGRATULATIONS!  
Clearly no group can, as an entity, create ideas. Only individuals can do this. A group of individuals may, however, stimulate one another in the creation of ideas. Estill I. Green
